# How to Install MASM in Windows

## STEP-1:

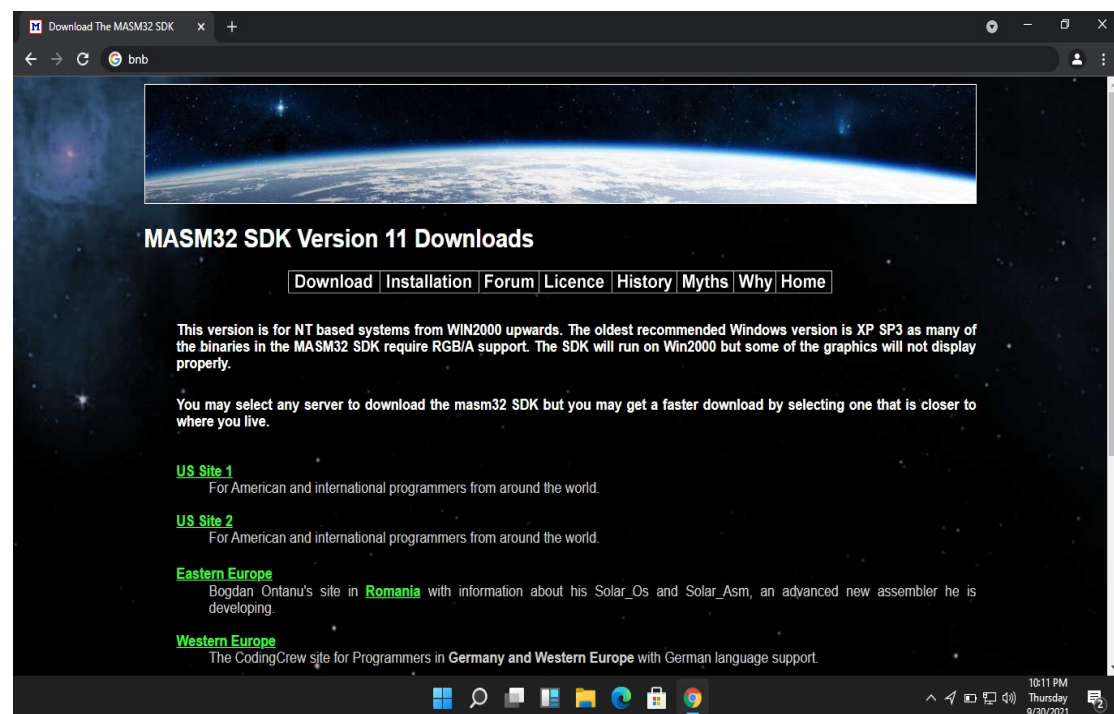

You have to go Chrome browser and download MASM.

You can download from following link

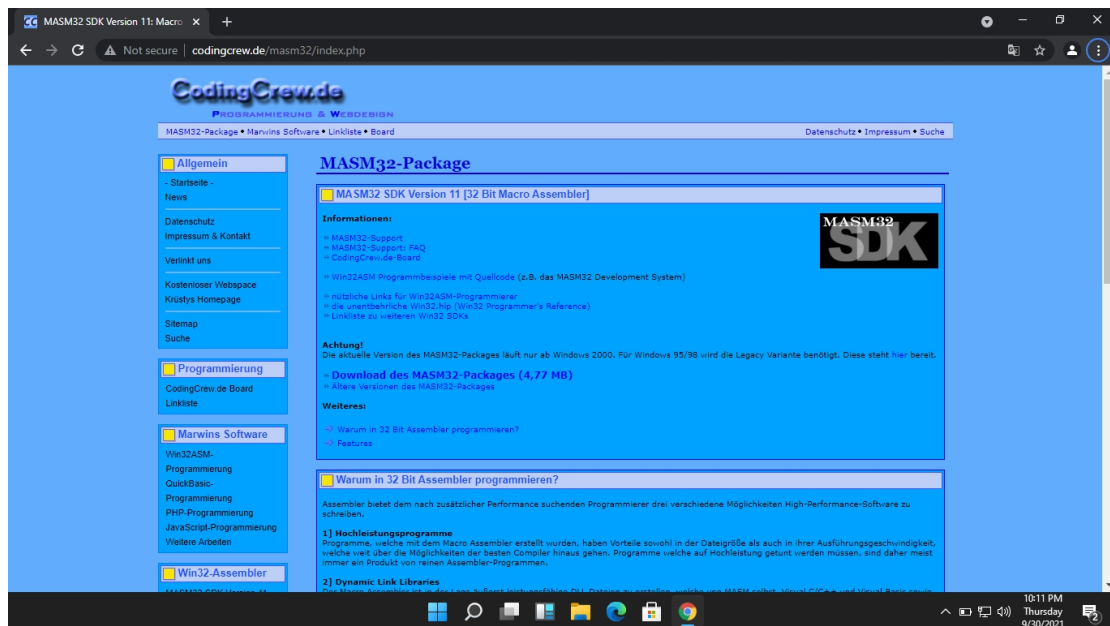

<https://www.masm32.com/>

## STEP-2:

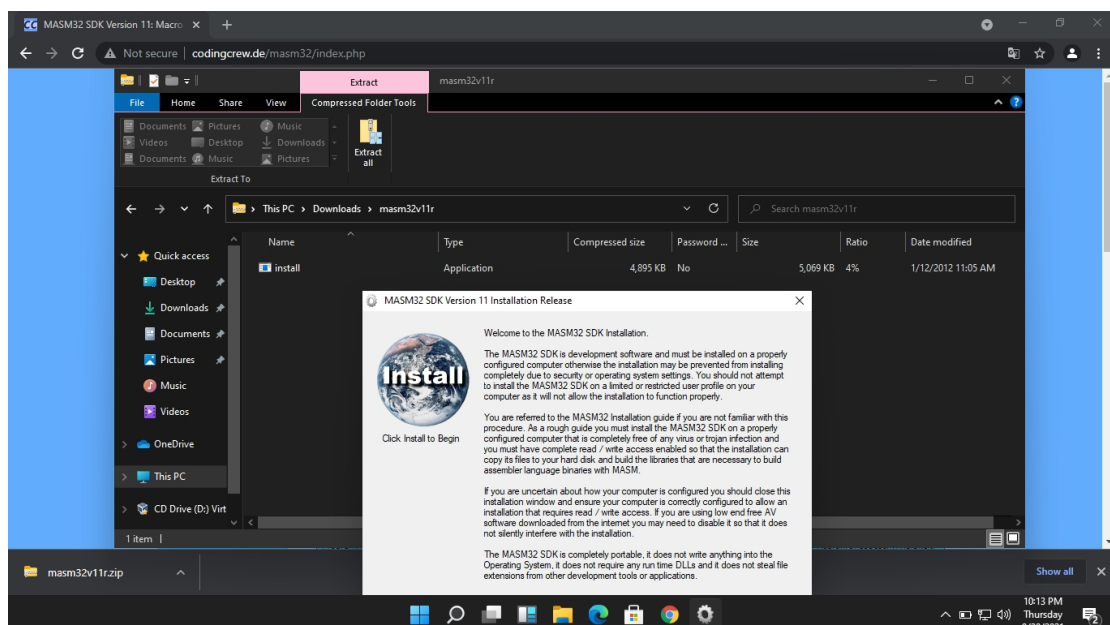

Click on western europe

## STEP-3: Click on Download Dos MASM32...(4.72mb)

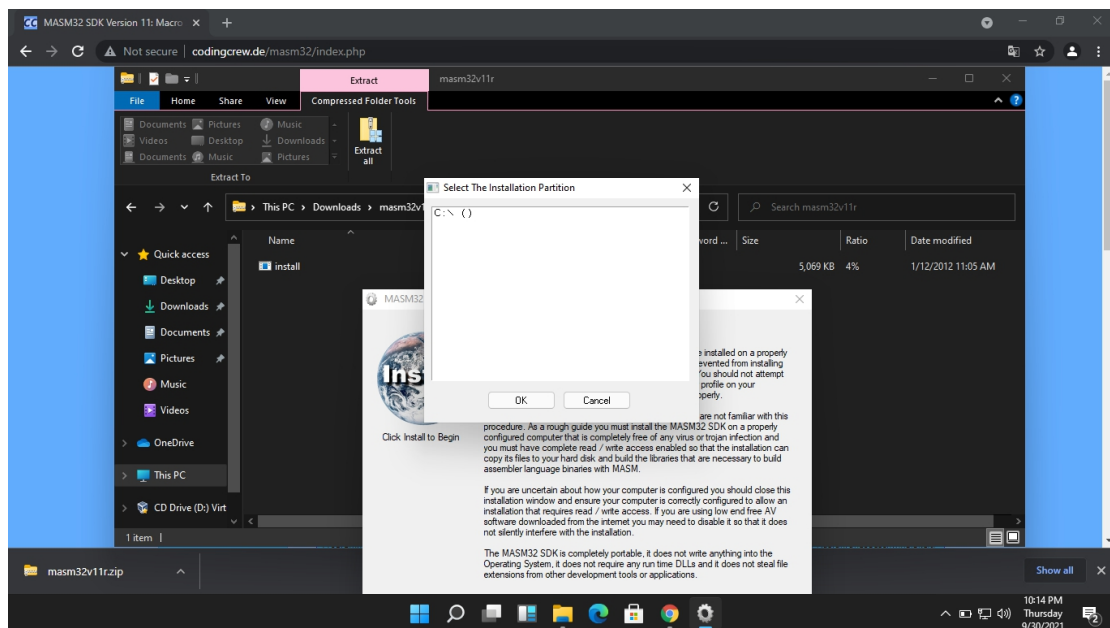

## STEP-4: Now we will Install MASM

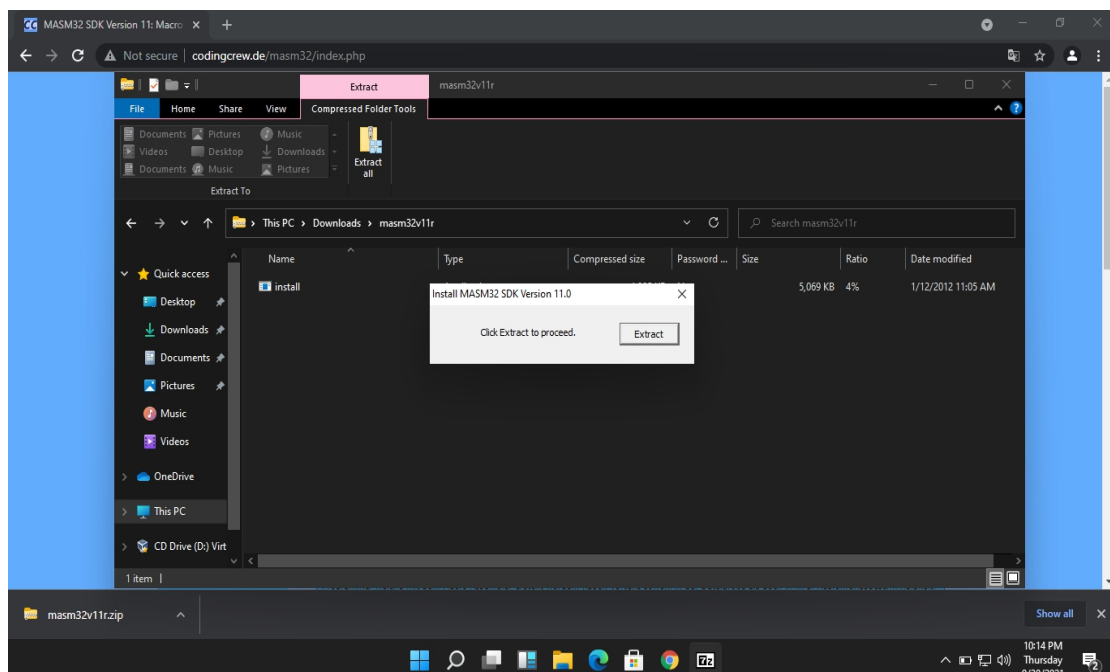

## STEP-5:

Now we will give path Drive C:

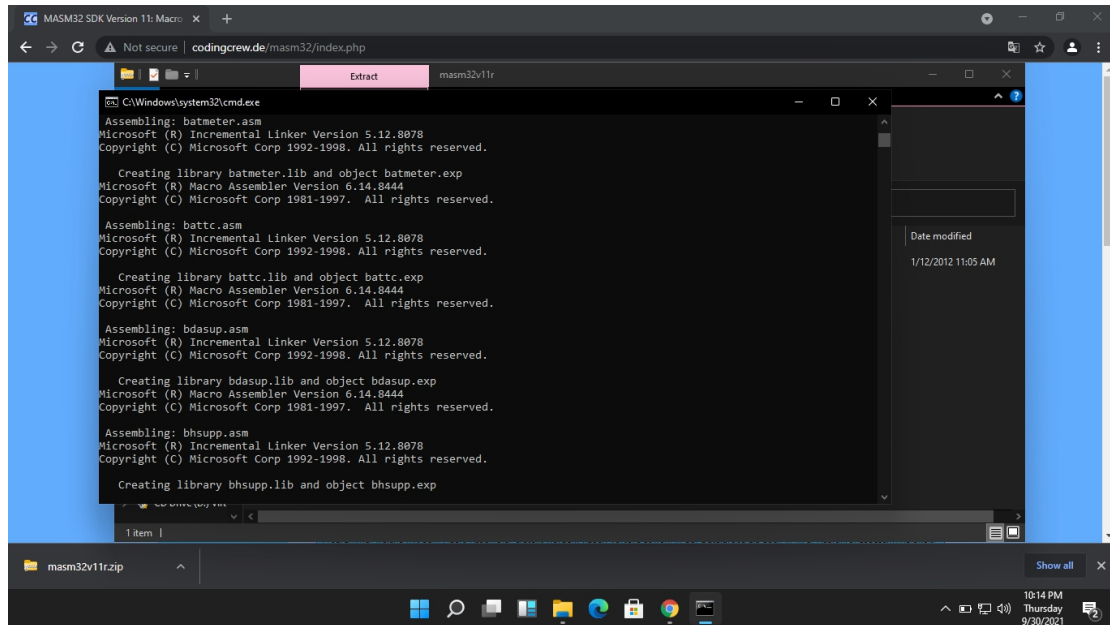

## STEP-6:

Now we will extract.

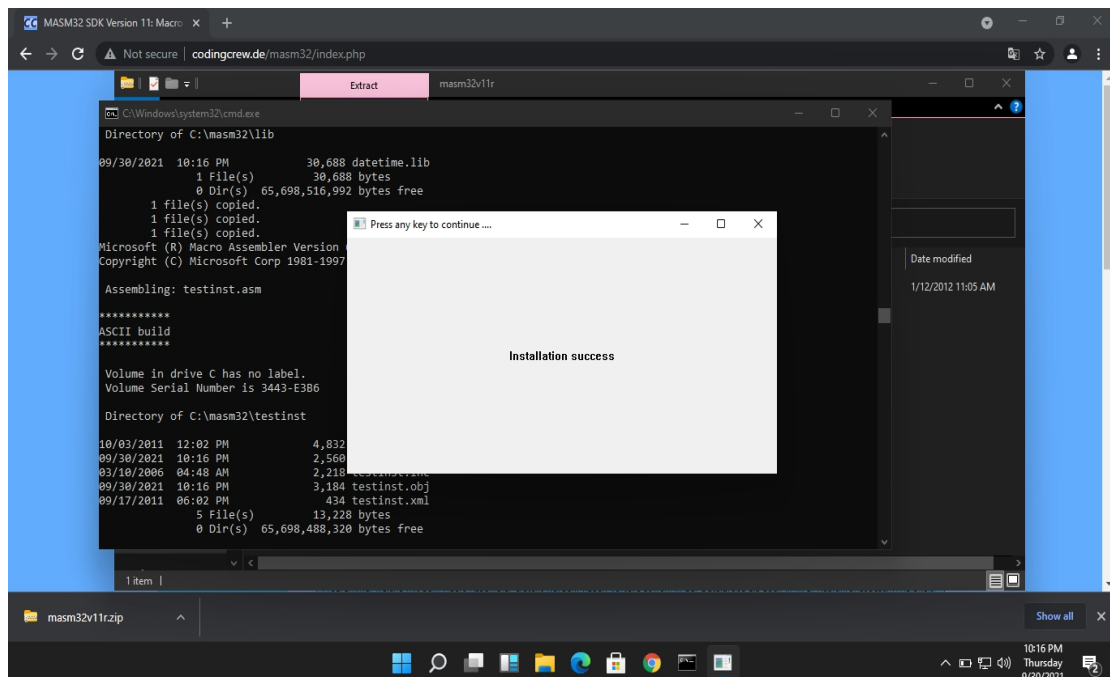

## STEP-7:

Now you can see the Installation is running.

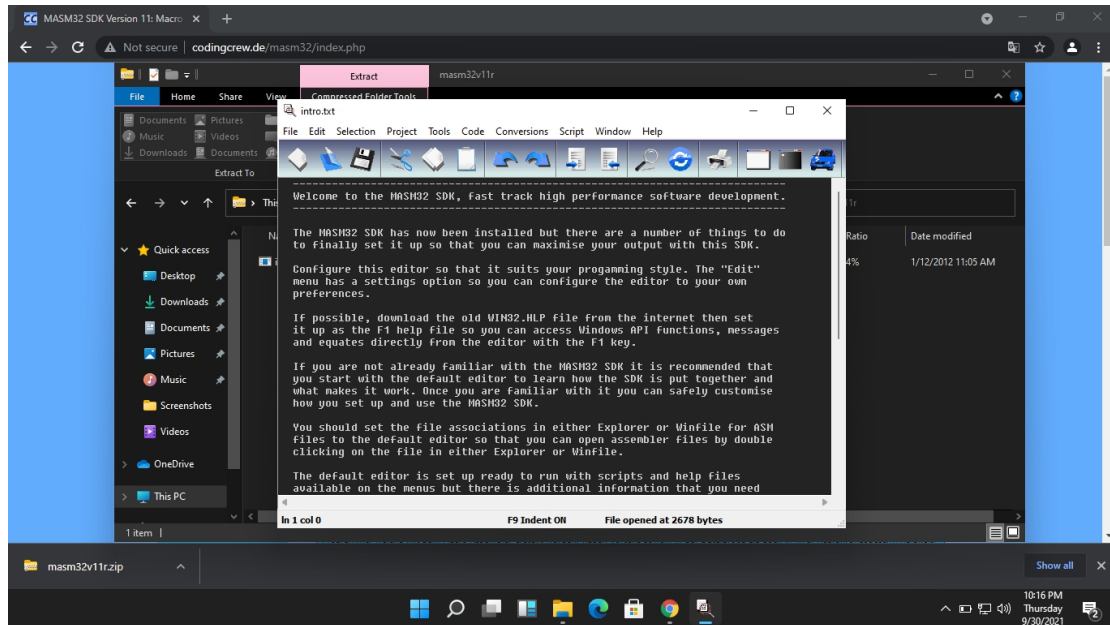

## STEP-8:

Here Installation is Success.

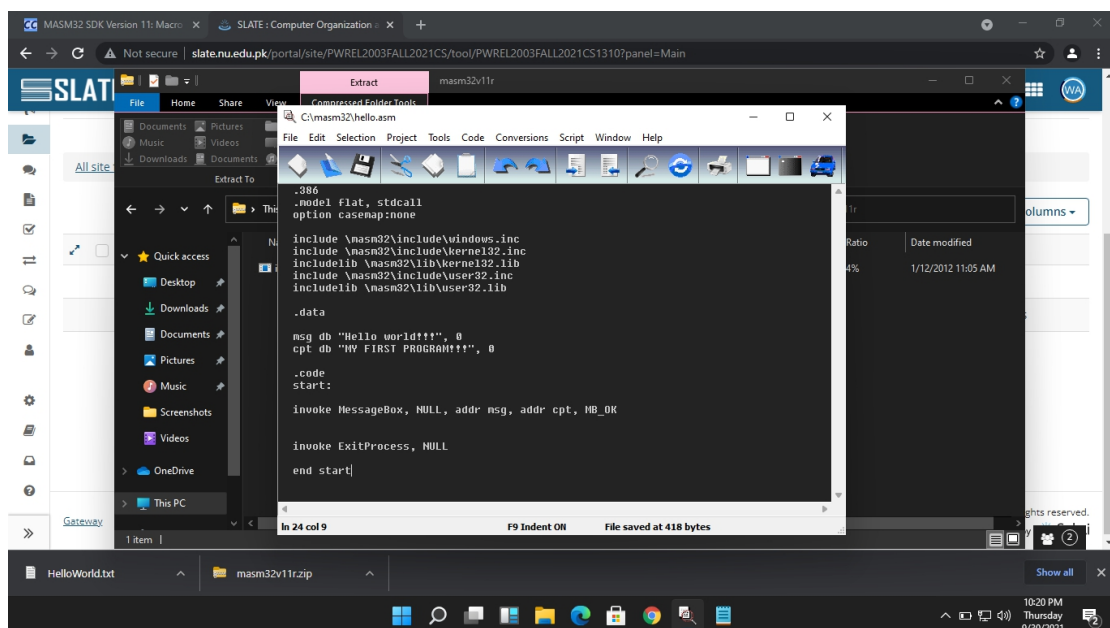

## STEP-9:

After Installation as you can MASM is opened.

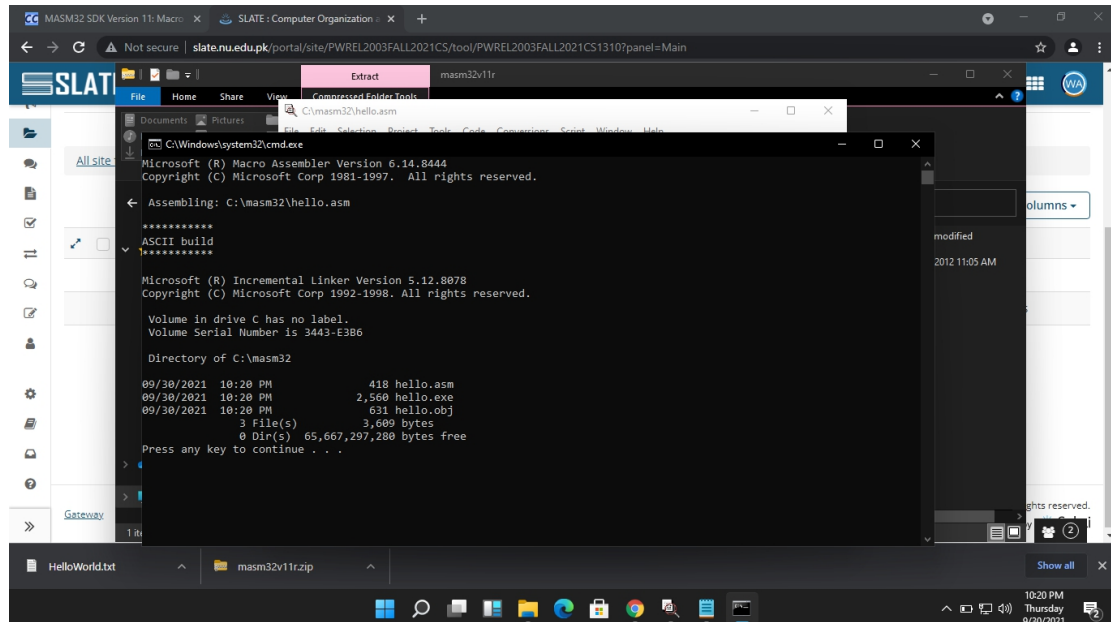

## STEP-10:

Now we have paste our asm code.

## STEP-11:

Now we have build our code and it is successfully build.

## STEP-12:

Now we will go to that folder in which we save the asm code and then we will open cmd and run our code in it then after running successfully you can see the output.
